## EXPERIENCE

### Mentor

#### Coding Ninjas, India

📅 July 2021 - Present

📍 Pitam Pura, New Delhi, India

- Mentoring students in understanding basic computing concepts such as writing algorithms and problem solving.
- Guiding them to learn to identify issues with the logical flow of code they create, and practicing good object-oriented technique.
- Planning a proactive tutoring and study program to help them keep progressing in the course.
- Supervision of 20+ students is under me and taking live sessions thrice a week to tackle their bottlenecks.

### Teaching Assistant, Intern

#### Coding Ninjas, India

📅 October 2019 - July 2021

📍 Pitam Pura, New Delhi, India

- Assisted students in debugging the code, finding and rectifying the errors and explaining the code.
- Helped students in their logic building and how to reach from brute force to optimal solution.
- Nurturing students helped me in improving my technical skills and gaining self confidence.

### Campus Ambassador

#### IIIT Hyderabad

📅 October 2019 - March 2020

📍 Hyderabad Gachibowli, India

Promoted IIIT Hyderabad in campus and conducted various workshops competitions.

## CODING PROFILES

- **Codechef profile:** abcd123
  - Highest Rating achieved: 1634 (3 star)
  - Highest Overall Rank achieved : Country Rank 40591, Global Rank 49828
- **Leetcode profile:** abcd123
  - Highest Rating achieved: 1433 (3 star)
  - Problem Solved : 170+

## SKILLS

Data Structures Algorithms

C, C++, Java, Python

Node.js, Bootstrap, CSS, HTML and Javascript

Ruby and Rails

React JS, MySQL, MongoDB, OOPS

## CERTIFICATIONS

- **JAVA with DS and Algorithms**  
License: f2507a389e0a781a
- **Campus Ambassador, IIIT Hyderabad**  
License: A37AAA71-FD77
- **Full Stack Web Development with Node.js**  
License: 1779294380b859
- **Campus Ambassador, Coding ninjas**  
License: link

## PROJECTS

### Codeial / Web App

📅 Project duration- 2 Month

- Created Codeial web application inspired by the facebook. Here a user can signup, sign in and logout functionality of the project
- Server side has been handled using ExpressJS and front end using EJS, and database being used is MongoDB.
- It implements the passport.js strategy for an individual's authentication and Authorization. For social authentication that is signing through google, it applies the passport-google-oauth2 strategy.
- Nodemailer and Kue.js is used for sending emails and notifications.
- User can chat with his friends, library used is socket.io to implement real time chat feature.
- Upload files with using multer. and JWT for creating token

### Open WhiteBoard

📅 Project duration- 2 week

- Created a realtime whiteboard built using Vanilla JavaScript, HTML and CSS.
- Used Socket.io and Node events to reflect back realtime changes to multiple users.
- Functionality Undo - Redo for board using Arrays as a Stack by storing positions, sticky notes, upload picture and download.

### Instagram Reels

📅 Project duration- 1 month

- User can upload video/photos which will be displayed on main timeline.
- User can like, comment on any post.
- Used firebase for database and storage.

## EDUCATION

🎓 B.Tech in Information Technology

ABES Institute Of Technology

📅 August 2018 - May 2022

Current CGPA: 7.8

## EXTRA CURRICULAR

- UMEED ADGITM NGO, DELHI
- Virtusa NeuralHack2021-Season5 Certificate
